

Central PA Community Links Speaker's Bureau

A guide to agencies that offer presentations
on topics related to disabilities.

In response to requests from the community, the Family and Community Connections Committee of the Capital Area Interagency Coordinating Council for Early Intervention developed this resource in October 2003. The Family and Community Connections Committee advocates for the inclusion of young children with disabilities, in community activities, and provides information to families, and those who support them about what the community has to offer young children.
