

Operation Military Kids Web Site Information

The following sites have materials specific to Military families and specifically those with young children with special needs. Samples of the web sites are included in this packet. They offer a wealth of information for parents, educators and others who may work with young children. They were also chosen because of the links they provide to other sites.

Military Homefront: The DoD Special Needs Parent Toolkit has comprehensive information and tools that are geared towards helping military families with special needs children navigate the maze of medical and special education services, community support and benefits and entitlements. The Toolkit is broken down into six colorful modules that can be easily downloaded and printed. We have included important facts, records, tools and sample letters. The toolkits are family friendly and are really good information for any family who has a child with special needs. They start at Birth to three.

Zero to Three: this site offers many different resources. There are letters families can use for their Child Care or pediatrician, brochures and flyers, onsite video, children's books to download and links to other great sites. This site is a place you must visit for useful information and resources.
